

Moves and Reconfiguration Services

Why we provide move and reconfiguration services:

We are passionate about getting the right furniture in the right place for you. As your business evolves, reconfiguring your existing furniture is a great way to meet your changing needs without compromising your budget.

Our team of experts is trained to identify furniture that can be disassembled and rebuilt in new ways. We will guide you through the process of identifying what to reuse, what can be refurbished, and connect you with options for donation or disposal when the time comes. No task is too big or too small for our network to tackle.

We know the pressure of moving to a new space can be overwhelming.

Our team will be your trusted advisors responsible for tracking all of your furniture, equipment and people, identifying where everything belongs, scheduling your move with minimal down-time and ultimately ensuring that everything goes according to plan.

We know the details so you can focus your attention on your other priorities.
